

California Integrated Waste Management Board

Board Meeting

March 15-16, 2005

AGENDA ITEM 28 (Revised)

ITEM

Consideration Of A Revised Full Solid Waste Facilities Permit (Disposal Facility) For The Crazy Horse Sanitary Landfill, Monterey County

I. ISSUE/PROBLEM STATEMENT

1. This item requests Board concurrence on the revision of the Crazy Horse Sanitary Landfill solid waste facilities permit.
2. Pursuant to Public Resources Code, Section 44009, the Board has 60 calendar days to concur in or object to the issuance of a full solid waste facilities permit. The proposed permit for this facility was received February 7, 2005. The date for submittal of a proposed permit that would allow 60 days for Board review prior to the March Board meeting was January 15, 2005. The Board has until April 8, 2005 to act on this permit. When the proposed permit package was received, the package contained all of the items required in Title 27, CCR, Section 21685.

II. ITEM HISTORY

- The Board last concurred with a revised permit for the facility in 20023.
- Compliance History:
 - 2000 – Seven State Minimum Standards (SMS) violations, seven permit violations
 - 2001 – Seven SMS violations, fourteen permit violations
 - 2002 – Four SMS violations, one permit violations
 - 2003 – No violations
 - 2004 – One SMS violation, three permit violations

The nineteen violations of the State Minimum Standard (SMS) from 2000 through 2004 and the twenty-five permit violations are explained in the Consistency with the SMS portion of the agenda item.

III. OPTIONS FOR THE BOARD

The Board may decide to do one of the following:

1. Concur in the issuance of the proposed permit as submitted by the LEA.
2. Object to the issuance of the proposed permit as submitted by the LEA.
3. Take no action on the proposed permit as submitted by the LEA. If the Board chooses this option, the Board shall be deemed to have concurred in the issuance of the proposed permit 60 days after the Board's receipt of the permit.

IV. STAFF RECOMMENDATION

Staff recommend option 1, concurrence with the issuance of the proposed permit.

V. ANALYSIS

A. Key Issues and Findings

Facility Name: Crazy Horse Sanitary Landfill
Facility No. 27-AA-0007

Facility Type: Existing Class III Sanitary Landfill

Location: 350 Crazy Horse Canyon Road,
Salinas, CA

Setting: Surrounding property is zoned Rural Density Residential

Operational Status: Permitted, active

Permitted Maximum
Tonnage: 900 tons per day

Proposed Maximum
Tonnage: 1,400 tons per day

Current Permitted
Hours of Operation Receipt of waste: ~~8:00~~ 7:00 a.m. - 4:00 p.m., Monday through
~~Saturday~~ Sunday and 8:00 a.m. - 4:00 p.m., Saturday
Operating: ~~7:00~~ 6:00 a.m. - ~~5:00~~ 6:00 p.m., Monday through
~~Saturday~~ Sunday

Proposed Permitted
Hours of Operation: Receipt of waste: 7:00 a.m. - 4:00 p.m., Monday through Friday
and 8:00 a.m. - 4:00 p.m. Saturday and 24 hours access for access
on public holidays for franchise haulers
Operating hours: 6:00 a.m. - 6:00 p.m., Monday through Sunday

Current Permitted
Area: 160 acres, with 72-acre disposal area

Current Permitted
Elevation: 605 Feet Mean Sea Level

Proposed Permitted
Elevation: 635 Feet Mean Sea Level

Current Remaining
Capacity: 0.45 million cubic yards as of
January 2002

Proposed Remaining
Capacity: 1.31 million cubic yards as of
March 2004

Current Traffic
Volume: 538 vehicles per day

Current Estimated
Closure Period: ~~November 2004~~ May 2006

Proposed Estimated
Closure Period: March 2009

Owner/Operator: Mr. Stephen T. Johnson, General
Manager
Salinas Valley Solid Waste Authority
LEA: Mr. Allen J. Stroh, Director
Monterey County Environmental Health

Background

The Crazy Horse Sanitary Landfill is located on 160-acre parcel west of, and adjacent to, Crazy Horse Road, approximately nine miles north of Salinas in Northern Monterey County. The landfill serves the City of Salinas and unincorporated communities within Monterey County. The landfill is separated into two refuse areas; the closed module 1 fill area and the active fill area. The closed Module 1 consists of a ten-acre unlined area located on the southeastern portion of the property. The closed module was used primarily as a burn dump from 1934 until about 1966. A corrective Action Plan has been implemented and the module has final cover and a ground water extraction and treatment system. The active fill area consists of approximately 74 acres and is being developed in five phases.

Key Issues

The proposed revised permit is to allow the following changes in the active fill area:

- Increase the elevation from 605 to 635 feet mean sea level;
- Extend the hours of operations;
- Change the remaining disposal capacity from 0.45 million to 1.31 million cubic yards;
- Change the estimate of the closure year for the landfill from 2004 to 2009;
- Change the maximum tonnage from 900 tons per day to 1400 tons per day.

Findings The following LEA certification and staff analysis are provided:

LEA Certification:

- The permit application package is complete and correct;
- The Joint Technical Document (JTD) meets the requirements of Title 27, CCR, Section 21600; and
- The proposed revised solid waste facility permit is consistent with and is supported by the existing CEQA analysis.

Staff Analysis:

The following table summarizes Board staff's review and analysis of the proposed permit application package:

27-AA-0007 Summary of Board Findings	Accept- able	Unaccept- able	To Be Deter- mined	Not Applic- able	See Details Below
CIWMP Conformance (PRC 50001)	√				<i>1</i>
Consistency With State Minimum Standards	√				<i>2</i>
RFI Completeness	√				
California Environmental Quality Act	√				<i>B</i>
Preliminary Closure/Post-Closure Maintenance Plan	√				<i>3</i>
Funding for Closure/Post-Closure Maintenance	√				<i>4</i>
Operating Liability	√				<i>4</i>

1. Conformance with County Integrated Waste Management Plan (CIWMP):
Public Resources Code (PRC) Section 50001 requires that the location of any new or expanded disposal facility be identified in the Countywide Siting Element (CSE). The location of the Crazy Horse Sanitary landfill is identified in the County's Multi-Jurisdictional CSE. The Office of local Assistance staff therefore finds the proposed permit to be in conformance with the County's CSE.
2. Consistency with State Minimum Standards:
Board staff conducted an inspection at the facility on September 28, 2004 and found that the design and operations of the facility were consistent with the applicable State Minimum Standards (SMS). However, one permit violation was noted for exceeding the permitted tonnage limits.

The nineteen violations of the State Minimum Standards (SMS) the LEA cited in 2000 through 2004 were for issues related to explosive gas control, roads, disposal records, and daily and intermediate cover applications. A gas extraction system was installed in 2000; however, in 2002 there were electrical problems with the system, which have since been corrected. The twenty-five permit violations the LEA cited from 2000 through 2003 were for the issues having to do with the operator exceeding its traffic limits. On March 2002, the permit was revised to change the traffic limits and no traffic violations have been cited since. The three permit violations the LEA cited in 2004 were for the issues having to do with the operator exceeding its permitted maximum daily tonnage. As a result, the operator has reduced the amount of out-of-county waste received, which helped maintain the permitted limits and correct the violation.

3. Closure and Postclosure Maintenance Plan: Staff of the Board's Remediation, Closure & Technical Service Branch have determined that the Preliminary Closure/Postclosure Maintenance Plan is consistent with State Minimum Standards per 27 CCR, Section 21685 (b)(5).
4. Financial Assurances & Operating Liability: Board staff of the Financial Assurance Section has found that, based on the updated information received from the Salinas Valley Solid Waste Authority (SVSWA) for the capacity and fund balance calculations for the Crazy Horse Sanitary Landfill, the closure fund is now adequately funded. The SVSWA has provided a pledge of revenue agreement as an acceptable demonstration for the costs of postclosure maintenance. In addition, an acceptable Certificate of Self-Insurance and Risk Management is on file for the required financial responsibility demonstration for operating liability claims. Based on the fund balance and capacity information submitted by the SVSWA, the financial assurance demonstrations meet all the requirements at this time.

B. Environmental Issues

1. California Environmental Quality Act (CEQA)
State law requires compliance with the California Environmental Quality Act either through the preparation, circulation and adoption/certification of an environmental document and mitigation reporting or monitoring program or by determining that the proposal is categorically or statutorily exempt.

The SVSWA, acting as Lead Agency, prepared the following environmental documents for the Crazy Horse Sanitary Landfill:

A Draft Environmental Impact Report (DEIR) State Clearinghouse No. 2000021027 was filed with the State Clearinghouse (SCH) for a public review period from March 21, 2002 through July 1, 2002. The Salinas Valley Solid Waste Authority (SVSWA) certified the DEIR in October 2002. Proposed changes to design and operation at the Crazy Horse Landfill were evaluated in the DEIR including changes to equipment operating hours (6:00 AM to 6:00 PM) Monday through Sunday, waste acceptance (7:00 AM to 4:00 PM) Monday through Saturday, and an increase in elevation to 635 feet mean sea level. The Notice of Determination was filed on November 22, 2002. Technical Addendums were completed for the following:

- Hours of operation - February 2002
- Out-of-county waste - July 10, 2002
- Increased tonnage - April 15, 2004.

The Local Enforcement Agency has stipulated a condition in the permit [17 (h)] that the maximum permitted daily tonnage for this facility will not exceed 1400 tons per day, and that the facility shall not receive more than this amount without a revision of this permit. In addition, in order to reduce NOx emissions to acceptable levels, the grinder and/or the trammel screen run time will be reduced to only operate 4 hours each day.

Board staff recommends the environmental documents cited above as adequate for the Board's environmental evaluation of the proposed project for those project activities which are within the Board's expertise and/or powers, or which are required to be carried out or approved by the Board.

2. Staff is not aware of any impact regarding other state agencies, or cross-media impacts related to this item.

C. Program/Long Term Impacts

Based on available information, staff is not aware of any program or long-term impacts related to this item.

D. Stakeholder Impacts

Based on available information, staff is not aware of any stakeholder impacts related to this item.

E. Fiscal Impacts

No fiscal impact to the Board results from this item.

F. Legal Issues

Based on available information, staff is not aware of any legal issues related to this item.

G. Environmental Justice

Community Setting:

Land uses surrounding the landfill are zoned rural density residential. Adjacent land uses include cattle grazing and residential uses. The nearest residences are located

approximately 560 feet from the landfill on the northwest and approximately 360 feet from the landfill on southeast. Crazy Horse Sanitary Landfill is located in Census Tract 105.01 in the 2000 U.S. Census Bureau Database for Monterey County. According to the 2000 census, the population of Census Tract 105.01 consists of the following:

US Census Bureau Data Census 2000 – Race, Census Tract 105.01 County of Monterey, California	All Ages	
	Number	Percent
White	5735	90.6
Black or African American	68	1.1
American Indian and Alaska Native	34	0.5
Asian	246	3.9
Native Hawaiian & Other Pacific Islander	8	0.1
Some other race	5	0.1
Two or more races	237	3.7
Total Population	6,333	100

About 24.9% of the population in Census Tract 105.01 identify themselves as Hispanic or Latino. The median household income of the residents in the 2000 census was \$72,352 and approximately 3.9% of the families were below the poverty level.

Community Outreach:

On November 29, 2004, the LEA held a public hearing, according to the requirements of AB 1497. The LEA reported that the following comments were received during the hearing: Concerns pertaining to birds (sea gulls), litter on the roads, date of closure, noise, dust, odor, receipt of out-of-county waste, effects of runoff onto the ground water, increase in height, tonnage, and traffic increase. The LEA determined that concerns raised are addressed in the JTD or as a condition in the permit.

Environmental Justice Issues:

Based on available information, staff is not aware of any environmental justice issues related to this project.

H. 2001 Strategic Plan

Staff work on new or revised solid waste facility permits is completed as part of Goal 4: Managing and mitigating the impacts of solid waste on public health and safety and the environment and promoting integrated and consistent permitting, inspection, and enforcement efforts.

VI. FUNDING INFORMATION

This item does not require any Board fiscal action.

IX. WRITTEN SUPPORT AND/OR OPPOSITION

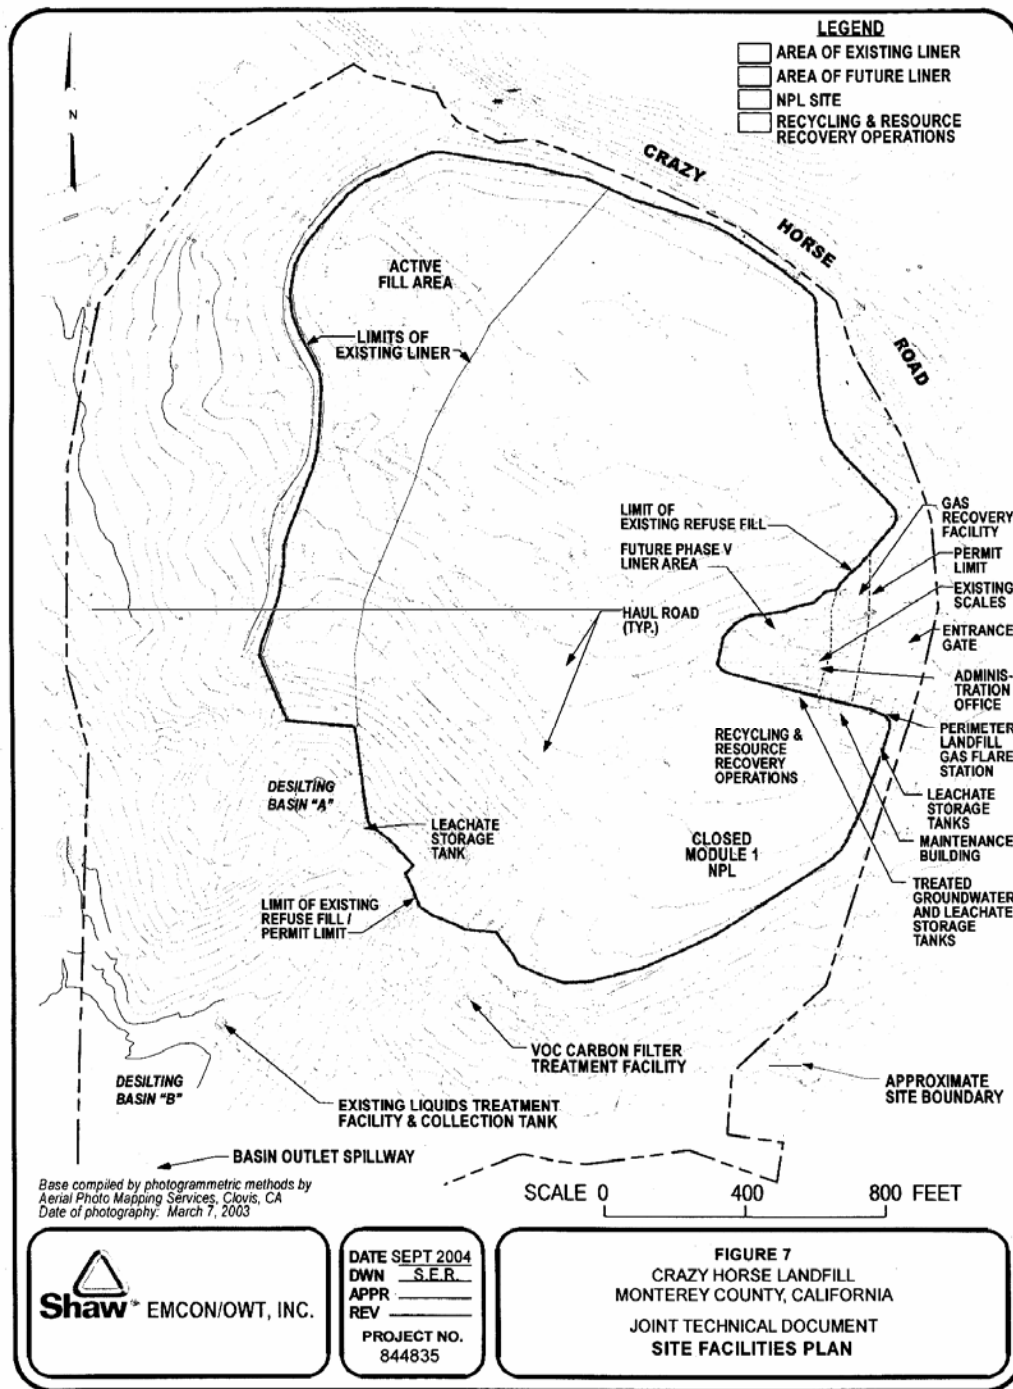

A. Support

Staff has not received any written support at the time this item was submitted for publication.

B. Opposition

Staff has not received any written opposition regarding this item was submitted for publication.

SOLID WASTE FACILITY PERMIT		Facility Number: 27-AA-0007			
1. Name and Street Address of Facility: Crazy Horse Sanitary Landfill 350 Crazy Horse Canyon Road Salinas, CA 93907	2. Name and Mailing Address of Operator: Salinas Valley Solid Waste Authority 337 Melody Lane Salinas, CA 93901	3. Name and Mailing Address of Owner: Salinas Valley Solid Waste Authority 337 Melody Lane Salinas, CA 93901			
4. Specifications:					
a. Permitted Operations: <input checked="" type="checkbox"/> Solid Waste Disposal Site <input type="checkbox"/> Transformation Facility <input type="checkbox"/> Transfer/Processing Facility (MRF) <input checked="" type="checkbox"/> Other: Chipping & Grinding <input type="checkbox"/> Composting Facility					
b. Permitted Hours of Operation: Receipt of Refuse/Waste, Recyclables & Cover Material* : 7:00 A.M. - 4:00 P.M. Monday – Friday and 8:00 A.M. – 4:00 P.M. Saturday. The site is closed on the following holidays (but open to service franchise haulers if needed during normal operating hours): New Years, Fourth of July, Thanksgiving and Christmas. Ancillary Operations/Facility Operating Hours*: 6:00 A.M. – 6:00 P.M. Monday – Sunday. * See Enforcement Agency (EA) Condition 17i for specific information.					
c. Permitted Maximum Tonnage: 1400 Peak Tons per day					
d. Permitted Maximum Traffic Volume: 538 Vehicles per day					
e. Key Design Parameters (Detailed parameters are shown on site plans bearing EA and CIWMB validations):					
	Total	Disposal	Transfer/Processing	Composting	Transformation
Permitted Area (in acres)	160	72	N/A	N/A	N/A
Design Capacity (tons)	1.31 million remaining as of 3/3/04		N/A	N/A	N/A
Max. Elevation (Ft. MSL)	635				
Max. Depth (Ft. MSL)	410				
Estimated Closure Year	March 2009				
Upon a significant change in design or operation from that described herein, this permit is subject to revocation or suspension. The attached permit findings and conditions are integral parts of this permit and supersede the conditions of any previously issued solid waste facility permit.					
5. Approval: Allen J. Stroh, R.E.H.S., M.P.A. Director of Environmental Health			6. Enforcement Agency Name and Address: Monterey County Environmental Health Division 1270 Natividad Road, Room 301 Salinas, CA 93906		
7. Date Received by CIWMB: <div style="text-align: center; font-weight: bold;">FEB 07 2005</div>			8. CIWMB Concurrence Date:		
9. Permit Issued Date:	10. Permit Review Due Date:	11. Owner/Operator Transfer Date: <div style="text-align: center;">N/A</div>			

SOLID WASTE FACILITY PERMIT		Facility Number: 27-AA-0007
12. Legal Description of Facility: The legal description of this facility is: Sections 14 and 15, Township 13 South, Range 3 East, Mount Diablo Baseline and Meridian. APN 125-271-39		
13. Findings: a. This permit is consistent with the Monterey County Integrated Waste Management Plan, which was approved by California Integrated Waste Management Board (CIWMB) in 1997. The location of the facility is identified in the County-Wide Siting Element for Monterey County, pursuant to Public Resources Code (PRC), Section 50001(a). b. This permit is consistent with the standards adopted by the CIWMB, pursuant to PRC 44010. c. The design and operation of the facility is consistent with the State Minimum Standards for Solid Waste Handling and Disposal as determined by the enforcement agency, pursuant to PRC 44009. d. North County Fire District has determined that the facility is in conformance with applicable fire standards, pursuant to PRC 44151. e. Environmental Impact Report: i. An Environmental Impact Report (EIR) was filed with the State Clearinghouse (SCH #2000021027) and the Salinas Valley Solid Waste Authority (SVSWA) Board passed a resolution to certify the EIR in October 2002. This comprehensive EIR evaluated various scenarios in order to provide for the solid waste disposal needs of its jurisdiction for approximately 70 years including potential changes to all existing solid waste facilities and the development of additional facilities. At Crazy Horse Landfill proposed changes to design and operation were evaluated including changes to equipment operating hours (6:00 AM to 6:00 PM) Monday thru Sunday and waste acceptance (7:00 AM to 4:00 PM) Monday thru Saturday. The SVSWA completed an extensive public process, which included seven public meetings before the release of the Draft EIR. The Notice of Determination was filed on November 22, 2002. Technical Addendums were completed for the following, clarifying hours of operation, February 2002, out of county waste, July 10, 2002 and increased tonnage, April 15, 2004. ii. An Environmental Impact Report was filed with the State Clearinghouse (SCH #199101050) and authorized by the Board of Supervisors for the Salinas Valley Solid Waste Authority on December 13, 2001. This document was prepared to evaluate: an increase in vehicle trips to and from the facility, stockpiling of imported soil, an increase of daily waste tonnage, the processing of Curbside Collected Yardwaste, updates in the remaining site capacity and site life estimates, and a change in contract operator. This document describes and supports the design and operation, which will be authorized by the issuance of this permit. A Notice of Determination (NOD) was filed with the State Clearinghouse on December 19, 2001. The NOD indicated that the Project would have a significant effect on the environment, that mitigation measures were not made a condition of the approval of the Project, and that a statement of Overriding Considerations was adopted for the Project iii. On 12/16/99, The Lead Agency, SVSWA, approved an IS/Mitigated Negative Declaration and issued a Notice of Determination for the Environmental Document. (SCH#999101050). This NOD was issued in order to update and revise the SWF Permit and the Waste Discharge Requirements, (WDR's). The IS/MND evaluated: an increase in the daily tonnage accepted at the landfill to 750 tons, installation of a leachate collection liner, adjustment to the reuse footprint, a revision to the waste phasing and grading plan, and material recovery from targeted uncompacted waste loads.		
14. Prohibitions: The permittee is prohibited from accepting the following wastes: Hazardous, radioactive, dead animals, medical (as defined in Chapter 6.1, Division 20 of the Health and Safety Code), liquid, designated, or other wastes requiring special treatment or handling, except as identified in the Report of Facility Information and approved amendments thereto and as approved by the enforcement agency and other federal, state, and local agencies.		

SOLID WASTE FACILITY PERMIT		Facility Number: 27-AA-0007

16. Self Monitoring:			
The owner/operator shall submit the results of all self-monitoring programs to the Enforcement Agency within 30 days of the end of the reporting period.			
Program		Reporting Frequency	
a. The types and quantities (in tons) of waste, including separated or commingled recyclables, entering the facility per day.	a. Monthly		
b. The number and types of vehicles using the facility per day.	b. Monthly		
c. Results of the hazardous waste load checking program, including the quantities and types of hazardous wastes, medical wastes or otherwise prohibited wastes found in the waste stream and the disposition of these materials.	c. Quarterly		
d. A summary of the Log of Special Occurrences and a copy of all written complaints (condition 17b) regarding this facility and the operator's actions taken to resolve these complaints.	d. Quarterly		
e. Results of the landfill gas-monitoring program.	e. Quarterly		
f. Wet weather preparedness report/winter operations plan.	f. Annual – due by November 1		
g. Fill sequencing plan for the forthcoming year.	g. Annually		
h. Remaining site capacity.	h. Annually		
i. Record of ADC in accordance with Title 14, Article 9.2, 18800.et.seq	i. Upon request		

SOLID WASTE FACILITY PERMIT	Facility Number: 27-AA-0007
17. Enforcement Agency (EA) Conditions:	
<p>a. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in Title 14 and Title 27 the California Code of Regulations.</p> <p>b. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, fires, explosions, the discharge and disposition of hazardous or unpermitted wastes, and significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The log shall be available to site personnel and the EA at all times. Notifications to the EA of special/unusual occurrences and written complaints shall be made within 48 hours of occurrence.</p> <p>c. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the EA.</p> <p>d. This permit is subject to review by the EA and may be suspended, revoked, or revised at any time for sufficient cause.</p> <p>e. The EA reserves the right to suspend or modify waste receiving and handling operations when deemed necessary due to an emergency, a potential health hazard, or the creation of a public nuisance.</p> <p>f. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited, such as extension of closure date past March 2009, and cannot be extended under any condition beyond the end of the year 2009. Such a change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of an RFI amendment, to the EA at least 180 days in advance of the change.</p> <p>g. A copy of this permit shall be maintained at the facility.</p> <p>h. The maximum permitted daily tonnage for this facility is 1400 tons per day. The facility shall not receive more than this amount, 1400 tons per day, without a revision of this permit. As per calculation for emission reduction do to this increased tonnage and related increase in equipment for handling and compaction, the grinder and or the trammel screen run time cannot be any longer then four (4) hours per day.</p> <p>i. All access by public and commercial vehicles is limited to the hours of 7:00 A.M. - 4:00 P.M. Monday – Saturday. Ancillary Operations/Facility Operating Hours are from 6:00 A.M. - 6:00 P.M. Monday – Sunday. Activities during this time are limited to arrival and departure of site personnel, staff meetings, maintenance of landfill equipment, and the operation of landfill equipment associated with landfill cover and drainage systems maintenance, and closure activities.</p> <p>j. This facility is permitted to accept the following types of non-hazardous solid waste: residential, commercial, industrial, agricultural, construction demolition, mixed municipal, governmental, tires, ash and wetted double-bagged non-friable asbestos (under 1 cubic yard without LEA pre-approval)</p> <p>k. Daily cover materials will be applied in accordance with 27 CCR, Division 2, Section 20680 and 20690, and as approved by the LEA.</p> <p>l. Chipped wood and green material may be applied for ADC up to five days per workweek and cannot be used in wet weather; soil or synthetic tarps will be used on other days.</p> <p>m. The accumulation of green waste must not interfere with the operation of the facility. Putrescible material for recycling must be processed and used on-site for beneficial use or removed offsite. If removed offsite, comply with 14 CCR, state minimum standards for compostable materials handling. Processed green waste may be used on-site as deemed appropriate and in compliance with all local, state, and federal regulations.</p> <p>n. The facility will use reasonable means available to reduce noise emanating from the site, which may included sound barriers, soil berms, or by placing waste in advancing lifts away from the south and west sides of the landfill in such a manner that the lifts act as a sound barrier. Any chipping and or grinding will only be done during normal operating hours.</p>	

SOLID WASTE FACILITY PERMIT	Facility Number: 27-AA-0007
<p>17. Enforcement Agency (EA) Conditions continued:</p> <ul style="list-style-type: none"><p>o. Vector controls, specifically seagulls, are to be controlled and deterred by using the industries best available control technology in accordance with 27 CCR Article 2, Section 21600 (b)(8)(E).</p><p>p. The facility will in accordance with its Order Impact Minimization Plan and the industries best available order control technology to minimize order emanating from the landfill.</p><p>q. This permit supersedes all previous Solid Waste Facility Permits for this site.</p><p>r. Portable light stands will be positioned to minimize off-site light dispersion.</p><p>s. No more then 200 tons of green material is permitted to be received at facility in one day.</p><p>t. Pretreated sludge to be used as soil amendment on side slopes must be applied within 60 days of delivery.</p><p>u. When recycled material bins are full, they shall be removed with in 60 days.</p>	

CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD

Resolution 2005-61

Consideration Of A Revised Full Solid Waste Facilities Permit (Disposal Facility) For The Crazy Horse Sanitary Landfill, Monterey County

WHEREAS, the Monterey County Environmental Health Department, as the Local Enforcement Agency (LEA), has submitted to the Board for its review and concurrence with, or objection to, a revised full solid waste facility permit for Crazy Horse Sanitary Landfill; and

WHEREAS, the Salinas Valley Solid Waste Authority, as the owner/operator, proposes to revise the permit to: increase the elevation from 605 to 635 feet mean sea level, extend the hours of operation, change the maximum tonnage from 900 to 1400 tons per day, change the remaining disposal capacity from 0.45 million to 1.31 million cubic yards, and change the estimate of the closure period for the landfill from 2004 to 2009; and

WHEREAS, the Salinas Valley Solid Waste Authority, acting as the Lead Agency, prepared and certified on October 2002 an Environmental Impact Report (EIR), State Clearinghouse (SCH) # 2000021027, to comply with the requirements of the California Environmental Quality Act (CEQA); and

WHEREAS, the Salinas Valley Solid Waste Authority, acting as the Lead Agency, prepared three Technical Addendums to the certified EIR on February 2002 clarifying hours of operation; on July 10, 2002 clarifying receipt of out-of-county waste; and on April 15, 2004 clarifying an increase in tonnage from 900 to 1400 tons per day; and

WHEREAS, the LEA has certified that the application package is complete and correct and that the proposed revised permit is supported by the CEQA document that was prepared for the project; and

WHEREAS, the Board finds that the proposed permit is consistent with the California Environmental Quality Act; and

WHEREAS, Board staff have evaluated the proposed permit for consistency with the standards adopted by the Board; and

NOW, THEREFORE, BE IT RESOLVED that the California Integrated Waste Management Board concurs in the issuance of the Solid Waste Facility Permit No. 27-AA-0007.

CERTIFICATION

The undersigned Executive Director, or his designee, of the California Integrated Waste Management Board does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the California Integrated Waste Management Board held on March 15-16, 2005.

Dated:

Mark Leary
Executive Director
